

Bedroom Makeover Series 8- 12's

Duration: 10 x 24 minutes

Budget: To a maximum of €300,000

Broadcast: RTÉ2, TRTÉ

We are looking for a bedroom makeover series for kids. A series that encourages kids to get hands on and help create their dream space that will have all their friends green with envy!! But what make this series stand out from the crowd of other design /makeover series that are out there? What are the format points that make our show unique? Who are our experts and what skills set do they bring to the table? How can we teach kids watching at home that they too can have a go and that it doesn't have to cost the earth? Could we incorporate a recycling/upcycling section? What are the top tips that kids can take away from watching? How can we take the key points from the series and repackage them into design bursts/How To videos we can use on line and on social?

We ask, in the first instance, that producers submit ideas into the eCommissioning system: <http://e-commissioning.rte.ie/SWIFT.Web/skins/rte/login.asps> under the programme category "Young Peoples –Bedroom Makeover (2019)

CLOSING DATE : 01 FEBRUARY 2019 AT 12 NOON
