**Broadcast: RTÉ ONE, Post-Watershed, 21.30 Wednesday**

What have you got to entertain us on Wednesday night on RTÉ One?

What light hearted entertaining proposals do you have which can appeal to our broad RTÉ One audience? Your show should be filled with light hearted humour. It must be cheerful and lively to the core. Convince us that your series will be highly entertaining and full of fun.

This could be an international format but it must be achievable at the price point and match the production value of the original. We are very interested also in original domestic formats with potential to return annually.

Do you have a strong narrative series with strong and colourful characters who our audiences would love to see embark on a transformative journey or be placed outside their usual environment? Do you have an exciting vehicle for a key talent to showcase his or her ability to attract a mainstream audience?

These proposals could be studio based or single camera post produced series.

In all cases identify who you see as the key talent attached to the proposition from producers, directors to on screen talent.

We ask, in the first instance, that producers submit ideas into the eCommissioning system under the programme category **“Entertainment and Music “RTÉ One Wednesday Nights 2020”**

**Deadline for receipt of submissions is Wednesday 09<sup>th</sup> October 2019**
